IN THIS ISSUE:

- OUR TESTIMONY FROM KANUNGU AS AN IMPACT OF 2021 PROFIT SHARE ON THE COMMUNITY.
- ADVANTAGES OF INDIGINOUS TREES
- THE JOY I GOT FROM TIST PROGRAM
- HOW TIST HAS IMPROVED OUR LIVES IN UGANDA

OUR TESTIMONY FROM KANUNGU AS AN IMPACT OF 2021 PROFIT SHARE ON THE COMMUNITY.

2021 Profit Share has got a big appreciation from the community and has impacted in the following ways.

It has increased income to Farmers which has helped them to improve on their welfare.

It has increased tree planting whereby many new trees are coming up which helps TIST program to live longer.

It has increased on number of new Small Group applications. Many people in the community are also willing to join TIST program since they have seen Farmers receive their Profit Share.

It has also improved on fruit trees which will help to address many problems that are brought by poor nutrition.

It has also helped in conserving environment through tree planting.

It has increased CF due to Farmers understanding that even co-benefits can increase on carbon credits, due to the third voucher.

Farmers are willing to maintain their trees as per the GHG contract.

Farmers established more many new nursery beds for future planting.

Farmers have used their Profit Share to plant other crops such as Irish and maize for food security.

It has helped Farmers to exercise TIST values such as mutually accountable and transparency.

It has brought development in the community whereby some Farmers invested their Profit Share in buying land to plant more trees.

Long live TIST Uganda. Long live Clean Air Action Corporation.

ADVANTAGES OF INDIGINOUS TREES

TIST Program promotes planting indigenous trees species and here are the advantages of planting indigenous tree species.

(a) Indigenous trees are not easily attacked by pests and diseases.

(b) Indigenous trees do not get affected by harsh climatic conditions. Whether it rains too much or shines, they are not easily spoiled.

(c) They grow/ mature slowly which gives them chance to produce nice timber.

(d) Indigenous tree species are a source of natural herbs.

(e) They also produce better fruits than any other trees.

(f) Indigenous tree species are a source of tourist's attraction. When the tourists come to Uganda, they are interested to see these species and pay money.

(g) They also important acting as home for wild animals and birds. They make a forest where wild animals and birds make their homes.

(h) Indigenous trees help to sequester carbon dioxide from the atmosphere.

This is very important as TIST Program tends to clean air through planting and sustaining trees.

(i) Indigenous trees, like any other trees, help in rain formation.

(j) They help the community to stop soil erosion. This is mostly in hilly areas like Kigezi. When they are planted alongside these hilly slopes, they reduce running water.

Let's plant indigenous tree species in all our TIST Operational areas

By Caleb Kayabuuki – Kabale-Kamuganguzi Cluster

THE JOY I GOT FROM TIST PROGRAM

They take carbon dioxide and give us oxy! am called Papa Orwanga Michael Richard a TIST farmer in Amuria District. I am very grateful with TIST because it's a ray of hope.

Besides education support from TIST, TIST has enabled me and my family to earn financially as a TIST farmer.

My Cluster Servant Mr. Oile Alex, Managing Obule Cluster, through his trainings, has enabled me to benefit from the program.

RUNYAKORE

I've ever benefited from incentive prepayment, carbon credit payment from trees, energy saving cook stoves, benefit proper spacing of trees as per species. i.e, two-meter space and more.

Planting both medicinal, fruit trees or timber trees as wood lots, and maintain for a period of 30 years from planting.

I have a plan to expand my tree plantation using the same payments I normally receive from TIST as carbon credit payment annually.

I strongly encourage public institutions, churches and other settings as farmers who have not joined the program yet to register so that they benefit financially and have knowledge to better their well-being, much importantly, climate mitigation.

Thank you, TIST PROGRAM IN UGANDA. Ooh comrades, while the joy of TIST Uganda, a brother in the names of Echeru Jones Oluma who has the highest hopes in TIST was delighted in TIST program, he could not hide his joy in learning that their group had appeared with carbon financial payment voucher.

Thank you TIST Uganda, long live TIST program.

By Oile Alex CS Amuria/Kalaki Districts

HOW TIST HAS IMPROVED OUR LIVES IN UGANDA

1. TIST has improved monthly income
2. TIST trees brought rainfall in some areas
3. TIST has given employment to some Ugandans
4. TIST has trained TIST members how to plant trees in lines and pruning trees
5. TIST members have learnt how to have good harvests from the crops plant
6. Cooperation among TIST members and friendship

By Jackson Beshubeho-Kabale

MAKALA YA BARUA YA HABARI -OKTOBA2022.USHAHIDI WETU KUTOKEA-WILAYA KANUNGU KAMA NI ATHARI YA KUSHIRIKI FAIDA JUU YA JAMII KWA MWAKA 2021.

Kushirikiana faida ya mwaka 2021 ime pata shukurani kubwa kutoka kwa jamii na kuatharisha ma njia zaafatao.

Ime ongezea mapato Kwa wa mkulima yenye pia ime wasaidia kuboresha ustawa wao.

Ime ongezea upandaji wa mtii,na sasa mtii miingi mpya imekuja kwajili ya kusaidia mpango ya TIST kuishi tenaa kwa urefu .

Ime ongezea Kwa kujiandikishwa ya vikudi ndogo miingi mpya, yenye pia sasa watu wengi kwa jamii sasa wanatarajia kujiungana kwa TIST na mpango yake,vile waameona wamkulima wakipokea faida Yao ya kushiriki.

Ime boresha pia kwa mtii ya matunda, yenye itaasaidia kwa kuanwani matatizo mingi,ilie letwea na lishe hafifu.

Ime saidia pia kwa kuhifadhi mazingira kupitia Kwa kupanda mtii kwa wingii .

Ime ongezea CF kutokana ufahanu wa mkulima, yenye pia faida ya mara mbili inao weza kuongezekana kupitia Kwa malipo ya kaboni, kutokana na vocha ya mara tatu.

Wa mkulima wakoo taayari kudumisha mtii yao kulingana kuwaasiliana yao ya GHG .

Wa mkulima wali imarisha vitanda vya vitalu zingine mpya kwajili ya upandaji ya Baadaye.

Wa mkulima waame tumia faida Yao ya shirika kupanda vilimo vingine sasa waruu na mahiindi kwajili ya usalaama wa chakula.

Ime saidia pia wa mkulima kuakuiza zoezi ya thamani ya TIST sasa kuwajibika na pande zote mbili na uwazii.

Imeletaa maendeleo ndani ya jamii,naasasa wa mkulima wa mewekeza faida ya shirika yao kwa Ardhi ya kupanda mtii zaidi.

Muishi muda muurefu TIST Uganda.Muishi muda muurefu Hatua ya shirika kuusu hewa safi (CAAC).

FAIDA YA MTII ZA ASILI.

Mpango ya TIST ina kuuza upandaji wa Aina ya mtii ya Asili na hapa sasa hii ndie faida ya upandaji ya Aina ya mtii ya Asili.

- (a) Mtii ya Asili nia kuashambulizwa kwa urahisi ya wadudu na ungonjwa.
- (b) Mtii ya Asili sii ya kuathirika na hali ya hewa kali,hata kama nvua miingi ikitonya au juua ungaze,hazi wezi kuaribika Kwa urahisi.
- (c) Zina komea pole pole,hii ina zipea nafasi ya kuzalisha mbao nzuri.
- (d) Aina ya mtii ya Asili,ni chanzo cha mimea ya uraiaa.
- (e) Pia zina zalisha matunda Bora kushinda mtii aina nyingine.
- (f) Aina ya mtii ya Asili ni chanzo cha kivutioo ya utalii,kama wa talii wana kuja Uganda wana pendekezwa kuiona aina hii na kulipa fedha.
- (g) Pia hii Aina ya mtii ya Asili, ni ya muhimu daimu sasa nyumbani ya wanyama wa pori na ndege,zina fanya msitu kwenye wanyama wa pori na ndege zina faa kua na nyumbani zao.
- (h) Mtii ya Asili ina saidia kwa kunyonya hewa mbaya kwa Anga,hii nia muhimu sasa mpango ya TIST ina huiwa kuu safisha hewa kupitia Kwa upandaji na kuendeleza mtii.
- (i) Hiizi mtii ya Asili,kama aina ya mtii nyingine, pia ina saidia kwa malezi ya mvua.
- (j) Zina saidia jamii kuzuia Mmomonyoko ya udongo,hii ina tendeeke sana kwa eaneo ya kilima sasa Kigezi,Zikindiwa kwa eneo ya kilima na mteremko,zina punguza mafuriko ya maji mingii .

Baasi tupande Aina ya mtii ya Asili Kwa sehemu yetu ya kazi ya TIST.

Na Caleb Kayabuuki –wilaya Kabale-nguzo ya Kamuganguzi

FURAHA NILIO POKEA KUTOKA KWA MPANGO YA TIST

Mimi ni nayitwa papa Orwanga Michael Richard, mku-
lima wa TIST ndani ya wilaya ya Amuria.

Ni nae shukurani kubwa zaidi na TIST, kwajili ni chanzo cha tumaini,kando ya msaada ya elimu kutoka kwa TIST,ime niwezeswa na familia yangu kupata kifedha kama mkulima wa TIST.

Mtumishi wangu wa nguzo: Bwana Oile

Alex,akisimamia nguzo ya Obule, kupitia Kwa ma-
fundisho yake,zimeniwezesha kufaidika kwa mpango huu wa TIST.

Mimi nili faidikako tangu kutoka kwa malipo ya kwanza ya motisha,na malipo ya kaboni kutoka kwa mtii, na ya jiko mpishi ya kuokoa nishati,na kufaidisha namuna ya sahihi ya nafasi ya mtii kwa kila aina,sasa mita mbili nafasi na mengi.

Kupanda wote mtii ya dawa,matunda au mtii ya mbao sasa mbao kwawingi na kuudumisha Kwa kipindi ya miaka thelathini(30yrs) kutokea siku ya upandaji.

Ni nao mpango wa kupanua mashamba yangu ya mtii,nikitumia hizotu malipo zenyewe ambae nina pokeanga kutoka kwa mkopo ya malipo ya kaboni ya TIST Kwa kila mwaka.

Sasa nina hamasisha sana umma na taasisi yao,kanisa,na mazingira zingine sasa wamkulima wenye bado uunguna Kwa mpango huu,wakujje kujiandikishwa ndivyo wapate kufaidika kwa kifedha na kupata maarifa ya kuboresha maisha yao yakuishi vizuri,zaidi muhimu ni ya kukabiliana na hali ya hewa.

Asante sana zaidi MPANGO YA TIST UGANDA. Ooh marafiki,nina furaha ya TIST Uganda,Ndugu Mmwoja Kwamajina ya Echeru Jones Oluma,mwenye anao tumaini ya juu ndani ya TIST,alii furahia ndani ya mpango ya TIST,hakufichaa furaha yake vile alii guundua ya kwamba kundi yake ime onekania kwahizo zenye zime pataa vocha ya malipo ya kifedha ya kaboni.

Asante tenaa saana TIST Uganda, Muishi mudha murefu TIST na mpango zenyu.

Na Oile Alex-mtumishi wa nguzo wa wilaya-Amuria na Kalaki (CS).

JINSI TIST IME BORESHA MAISHA YETU KATIKA UGANDA

1. TIST ime boresha kwa mapato ya malipo ya Kila mwezi.
2. Mtii za TIST zili letaa mvua kwa wingii kwa maeneo zingine.
3. TIST ime peana Ajira kwa wanna inchi ya uganda wengine.
4. TIST ime nfunza wanachama wao kuusu upandaji wa mtii kwa misitarii na kuipogoa.
5. Wanachama wa TIST wa mejinfunzwa kuusu kua na mavuno mzuri kutoka kwa mazao ya vimea.
- 6.Kushirikiana katika ya wanachama wa TIST na kujenga uraafiki Bora.

Na Jackson Beshubeho-wilaya Kabale.

LIMI SENTE Z,O KUGAAANA KUMAGOBA
GO'MWAKA 2021**

Sente zo kugaabana amagooba ga 2021 kyalese abalimi okwebaza enyo era kyeyongede okuleta bino!

Kilese okwongera enyingiza mu balimi awo ne nku-lankulana ne yeyongera mubamemba

Nekyongera emitti okusimbibwa, emitti emipya gizimbidwa, ekiyambye pologulamu ya TIST oku-wangala

Kilese obubiina okweyongera nga bewandisa mu TIST era abantu bangi mu bitundu byaffe betefute-fu okwegatta ku TIST bwe balabye banabwe nga bagabana sente

Emitti gye bibaala mingi gisimbidwa, ekigya okuk-endeza kubizibu ebijawo olwendya etali nungi

Kiyambye ne mukutereza obutonde nga emitti mingi gisimbibwa

Eniima ya CF nayo yeyongende olwa balimi okukitegera nti basobola nabo okugabbana ku sente zino olwe bintu ebilala bye baaba bakoze mwebyo ebiri mu pologulamu ya TIST

Abalimi betefutefu okukuma emitti gyabwe nga endagano yabwe ne TIST bwe kilambika (eya GHG)

Abalimi bakozezeza ku sente ze bafunye mu kuga-bana kuno mu kulima ebirime ebilaLa nga obu-monde, kasoli olwo kubera ne mere.

Kiyambye abalimi okutukiriza ebigendelerwa bya TIST nga okubera abatukirede era nga beluffu.

Kilesewo okukulankulana mu bitundu byaffe nga abalimi abamu mu sente ze bafunye mu kusasulwa

ku magooba gabwe egiverako

EBIRUNGI EBIRI MU KUSIMBA EMITTI GI NASANGWA

Pologulamu ya TIST ekulembeza okusimba emitti ginasangwa era bino bye Birungi

- (a) Emitti ginasangwa tegikwatibwa mangu biwuka ne'dwadde.
- (b) Emitti ginasangwa tegikosebwa nyo nkyukakyuka yo budde oba etonye nyo oba gwasenyo
- (c) Emitti gino jikula mpola ekigiyamba okukula nga gikola olubawo olugumu era olulungi
- (d) Emitti gino gye givamu eddagala
- (e) Emitti gino era mirungi mu kutuwa ebibala ebirungi okusingako ebika bye mitti ebilala.
- (f) Emitti gino gileta obulambuzi,abalambuzi bwe bajja mu Uganda bababagala okulaba ku mitti gino awo ne basasula sente.
- (g) Emitti gino mirungi nti gikola nga amaaka ge bisolo byomunsiko ne binyonyi mwe bisula
- (h) Emitti ginasangwa giyamba mukulya empewo embi, kino kikulu eri pologulamu ya TIST mukutereza obutonde
- (i) Emitti gino giyamba mukuleta enkuba nga emitti emilala.
- (j) Giyamba mu kukendeza okulukuta kwettaka mu bitundu byo munsonzi nga ekigezi bwe giba gisimbidwa kumbalama zensonzi, kikendeza amazzi okulukuta ne ttaka

Tusimbe nyo emitti gino ginasangwa mu bitundu byona TIST mwe tukolera

ESANYU LYE NFUNYE MU TIST

nze papa Orwanga Michael Richard omulimi wa TIST okuva amuria district ndi musanyufu ne TIST kubanga lye suubi

Nga ovude mukuyamba kubaana okusoma TIST ensobozesa nze na'maka gange okwekulankulanya mu byenfuna nga omulimi.

Omukozi wange owa TIST Mr Oile Alex akolera mu kibiina ekinene ekye Obule mu kusomesa kwe, kin-yabye nyo okuyiga ne mu kufuna mu TIST.

Nfunye mu kusalwako sente nga emitti teginakula (pre - payment), amasigga agakekerezwa, okuwa amabanga agamala mu mitti nga nsimba, okusinzila ku kika kyo mutti ogusimbidwa,okugeza mita biri no kweyongera.

Okusimba emitti gyebibala oba egyembawo nga gikumibwa okumala emyaka 30 no kweyongerayo

Nina etegeka yo kugaziya ku nimiro yange eye emitti okuva mu sente zenfunye eri TIST buli mwaka.

Nkubiriza na'manyi amatendekero, amasinzizo, nabalimi abataneyunga ku mulamwa gwa TIST okukikolako basobole okwekulankulanya mu byenfuna no kutereza mu mbera ya waka okusingira dala, okutereza obutonde.

Webale pologulamu ya TIST mu Uganda, Oohh mikwano gyange ,esanyulya muganda wange Echeru Jones Oluma, ono alina euubi dene nyo mu TIST, yeyantegeza ku TIST era teyankweka sanyu lye ne nkizula ntiekiiina kyabwe kyalikifunye olupapula ollaga esasula ye sente ezali zigenda okubawebwa mu kugabaana kumagoba go'kutunda epewo embi (cabon dioxide)
