English Version

TIST is an innovative, time - tested, afforestation program led by the participants.

Urru TIST Cluster meeting held on 19/4/2023. Next meeting on 17/5/2023.

Inside: Muguna Small Group: Working Together in Team work. Page 2

TIST: Guidelines on Restoration of Groves. Page 2

TIST: Cluster Best Practices. Page 3

TIST: We are Ready for another round of Verification. Page 4

Muguna Small Group: Working Together in Team work.

We are Muguna Small Group 2008KE1569. We belong to Tubui Cluster. Tubui is a child Cluster from Tunyai mother Cluster. We established Tubui Cluster in 2013 having 22 Small Groups then. Today, we have 65 Small Groups!

We joined TIST in 2008. We are six (6) members. We meet every week where we discuss important issues for our Small Groups. We also meet to work on our Small Group tree nursery. We have found it easier to work as a Team in raising tree seedlings. In our Small Group, we do table banking as away to build ourselves financially. We got our seed capital from TIST payments. We also use part of the funds to improve our tree nursery.

Last season, we had over 2,000 seedlings in our tree nursery. We planted some in our shambas, while the rest were sold to our neighbours. Today, we have more than 1780 quantified trees in our farms, with a high significant being fruit trees.

We are grateful to TIST program. We have so far received over Ksh 100,000 in profit share and pre-payments. We have also gained from sale of mangos which fetch us more than Ksh 50,000 annually. Oranges fetch us more than Ksh 30,000 annually.

We want to encourage TIST farmers to work hard and smart. Do not just plant trees. Plant trees that have multiple benefits.

TIST: Guidelines on Restoration of Groves.

In some instances, Cluster Servants are having requests from farmers to have their old tree groves restored back. Some of these groves were dropped from TIST website when some farmers refused quantification due to some reasons or they were marked inactive because they couldn't be accessed because of bush or any other reason. Some were mistakenly dropped due to technical problems.

We want to serve such farmers restore their groves if they are genuinely keeping trees. There are Groves that have been harvested and they cannot be restored. Such Groves will harm the entire program.

Here is the guideline in restoring old groves.

1. A farmer should make such a request during the Cluster Meeting. He/she should explain why he/she want that Grove be restored.
2. Cluster Servant if satisfied with the request, should visit that grove and make assessment of it. Check whether the grove is still intact with trees and take photos of the grove.

3. Cluster Servant should share photos of such Groves with any member of Leadership Council and to any Desk Auditor.
4. Photos should be taken whether or not the Grove has trees. Even if it will not qualify to be restored, please continue to share photos.
5. Cluster Servant will then give their report during the next Cluster meeting. If Cluster leaders recommend the Grove to be restored, Cluster Servant will take note of that Grove and forward the request to Regional Tech person.
6. The Regional Tech person will review it and have it restored within a week.
7. After the Grove is restored, a Cluster Servant will within 2 weeks Quantify that Grove. It is recommended that the entire Group Groves be re- quantified especially if it is past 30 days quantification.

TIST: Cluster Best Practices.

Why Do We Work in Clusters?

1. To keep costs of serving TIST Small Groups low so that more carbon money goes to farmers.
2. To allow Small Groups to serve themselves more easily.
3. To allow TIST to expand more quickly by partnering with organizations who want to join TIST.

What Does a Good Cluster Look Like?

- o A Cluster should have 30-50 Small Groups.
- o A Cluster's Small Groups should be within walking distance of a central meeting point.
- o A Cluster should do accurate quantification and high quality training.
- o A Cluster should have enough seedlings in nurseries for annual planting needs.
- o A Cluster should have enough seedlings in nurseries for annual planting needs. TIST Small Groups Plant 'the right number' of trees around their houses, along fence lines, mixed with crops in their shamba, etc.

What Should a Good Cluster Do?

- o A Cluster should hold elections each 4 months to select an Accountability Person who will rotate through the positions.
- o A Cluster should meet every month for training, sharing of best practices, distribution of *Mazingira Bora* Newsletter, payments, and other matters.

- o At Cluster meetings, representatives should share information transparently with other members, such as how the cluster budget was used.
- o At the monthly Cluster meeting, a Cluster should submit their Cluster Meeting Record and their Cluster Accounting Form by Android phone Pendragon Forms.
- o A Cluster should actively request quantifications when needed.
- o A Cluster should ensure that quantification is accurate.
- o A Cluster should work to improve data quality of its Small Groups so that more trees can be eligible for the carbon market (included in Carbon Project Documents).
- o A Cluster should work to make payments to each Small Group.
- o A Good cluster is always recruiting and training new Small Groups. GROWTH makes the TIST program stronger! A Cluster should multiply in 2 when it reaches 400 members.

The Best TIST Clusters Will be Able to:

1. Receive more budget to manage more of your own operations.
2. Get more money per tree for each farmer
3. Be invited to a Best Clusters Seminar.
4. Take on responsibilities for training other clusters.

TIST: We are Ready for another round of Verification.

For TIST farmers to receive payments from sale of carbon tonnes, TIST Program has to be audited by external Auditors known as Verifiers. Verification is critical to ensuring the integrity and quality of the data collected by TIST Cluster Servants.

Verifiers are usually approved by Verra, a body that regulates carbon tonnes trade in Voluntary carbon market.

Here are public notices of the TIST projects that are set to be verified soon.

TIST PD KE005, Monitoring Period 23 May 2020 - 14 April 2023.

Results of Climate Monitoring Plan.

Total hectares of the project: 9,120.

Number of project areas (PA): 17,358.

Tree count in PD: 2,690,275.

Lifetime Tonnes Carbon Sequestered in PD: 1,849,351.

Tonnes Sequestered in Monitoring Period: 740,608.

Results of Community Monitoring Plan.

Small Group members in PD: 35,318 people.

Small Groups in PD: 5,168.

Community members in TIST Kenya: 130,534 people.

Small Groups in TIST Kenya: 18,490.

Number of community members active in TIST KE: 90,100 people.

Members with greenhouse gas agreements in TIST Kenya: 87,178 people.

Members receiving payments (female and male): 61,359.

Small Groups receiving Payments: 9,327.

Total payments to community in TIST Kenya: US\$3,080,673.

Person-training sessions on climate change in TIST KE: 161,844.

Person-training sessions on Conservation Farming in TIST KE: 261,643.

Person-training sessions on HIV/AIDS and health in TIST KE: 134,917.

Person-training sessions on biodiversity in TIST KE: 278,250.

Person-training sessions on natural resource management practices: 456,503.

Person-training sessions on TIST in TIST KE: 1,545,828.

Total person-training sessions in TIST KE: 3,101,232.

Number of people working for TIST: 118 people.

Number of live trees in TIST KE: 12,649,886

Number of live trees in PD: 2,690,275 trees.

Number of fruit or nut trees in PD: 438,497 trees.

Number of eucalyptus trees in PD: 281,797 trees.

Gold Level Community Benefits:

Monetized benefits to average members. Lifetime: \$13,473. Period: \$3,557.

Monetized benefits to vulnerable members. Lifetime: \$4,804. Period: \$1,246.

Monetized benefits to female members. Lifetime: \$12,783. Period: \$3,368.

Negative impacts identified by members. No negative impacts have been reported by the members.

**Biodiversity Monitoring Plan.**

Total PAs in the project: 17,358.

Number of indigenous trees by species: 375,963. Hectares of indigenous trees: 1,575. Number of Project Areas with indigenous trees: 13,795 indigenous trees in the Lower Imenti: 12,247 indigenous Hectares in the Lower Imenti: 16.2 Vitex keniensis (Meru Oak): 20,407 trees.

TIST PD KE006, Monitoring Period

06 January 2021 - 14 April 2023.

Results of Climate Monitoring Plan.

Total hectares of the project: 5,640.

Number of project areas (PA): 13,111.

Tree count in PD: 1,622,971.

Lifetime Tonnes Carbon Sequestered in PD: 1,289,570.

Tonnes Sequestered in Monitoring Period: 193,585.

Results of Community Monitoring Plan.

Small Group members in PD: 35,324 people.

Small Groups in PD: 3,961.

Community members in TIST Kenya: 130,534 people.

Small Groups in TIST Kenya: 18,490.

Number of community members active in TIST KE: 90,100 people.

Members with greenhouse gas agreements in TIST Kenya: 87,178 people.

Members receiving payments (female and male): 61,359.

Small Groups receiving Payments: 9,327.

Total payments to community in TIST Kenya: US\$3,080,673.

Person-training sessions on climate change in TIST KE: 161,844.

Person-training sessions on Conservation Farming in TIST KE: 261,643.

Person-training sessions on HIV/AIDS and health in TIST KE: 134,917.

Person-training sessions on biodiversity in TIST KE: 278,250.

Person-training sessions on natural resource management practices: 456,503.

Person-training sessions on TIST in TIST KE: 1,545,828.

Total person-training sessions in TIST KE: 3,101,232.

Number of people working for TIST: 118 people.

Number of live trees in PD: 1,622,971 trees.

Number of fruit or nut trees in PD: 259,316 trees.

Number of eucalyptus trees in PD: 194,495 trees.

Gold Level Community Benefits:

Monetized benefits to average members.

Lifetime: \$13,473. Period: \$2,762.

Monetized benefits to vulnerable members.

Lifetime: \$4,804. Period: \$968.

Monetized benefits to female members.

Lifetime: \$12,783. Period: \$2,615.

Negative impacts identified by members. No negative impacts have been reported by the members.

Biodiversity Monitoring Plan.

Total PAs in the project: 17,358.

Number of indigenous trees by species: 258,182.

Hectares of indigenous trees: 1,046.

**TIST PD KE009, Monitoring Period
23 May 2020 - 14 April 2023.****Results of Climate Monitoring Plan.**

Total hectares of the project: 2,121.

Number of project areas (PA): 4,058.

Tree count in PD: 597,901.

Lifetime Tonnes Carbon Sequestered in PD: 467,888.

Tonnes Sequestered in Monitoring Period: 134,805.

Results of Community Monitoring Plan.

Small Group members in PD: 12,205 people.

Small Groups in PD: 1,731.

Community members in TIST Kenya: 130,534 people.

Small Groups in TIST Kenya: 18,490.

Number of community members active in TIST KE: 90,100 people.

Members with greenhouse gas agreements in TIST Kenya: 87,178 people.

Members receiving payments (female and male): 61,359.

Small Groups receiving Payments: 9,327.

Total payments to community in TIST Kenya: US\$3,080,673.

Person-training sessions on climate change in TIST KE: 161,844.

Person-training sessions on Conservation Farming in TIST KE: 261,643.

Person-training sessions on HIV/AIDS and health in TIST KE: 134,917.

Person-training sessions on biodiversity in TIST KE: 278,250.

Person-training sessions on natural resource

management practices: 456,503.

Person-training sessions on TIST in TIST KE: 1,545,828.

Total person-training sessions in TIST KE: 3,101,232.

Personnel.

Number of people working for TIST: 118 people.

Number of live trees in PD: 597,901 trees.

Number of fruit or nut trees in PD: 97,109 trees.

Number of eucalyptus trees in PD: 59,998 trees.

Gold Level Community Benefits:

Monetized benefits to average members.

Lifetime: \$13,473. Period: \$3,557.

Monetized benefits to vulnerable members.

Lifetime: \$4,804. Period: \$1,246.

Monetized benefits to female members.

Lifetime: \$12,783. Period: \$3,368.

Negative impacts identified by members. No negative impacts have been reported by the members.

Biodiversity Monitoring Plan.

Total hectares of the project: 2,121.

Number of indigenous trees by species: 86,125.

Hectares of indigenous trees: 379.7.

Hectares of improved riparian areas: 30.2.

Vitex keniensis (Meru Oak): 5,899 trees.

TIST: Nitwithuranirite ringi gutegerua ngugi cietu. Page 4

Muguna Gakundi kanini: Gwita ngugi amwe ja Timu.

Turi Muguna gakundi kanini 2008keI 569.Turi ba clasta ya Tubui.Clasta iji ya Tubui ni kaana ga clasta ya Tunyai.Clasta iji ya Tubui,yanjiririe 2013 na tukundi tunini 22 na narua iji turi na ikundi 65.

Twathungiire ndeene ya TIST mwaka jwa 2008,turi amemba 6.Tucemanagia o rimwe kiri kiumia kwariria mantu ja gitumi ja gakundi geetu.Nkinya nitucemanagia kurtira nasari yeetu ya gakundi ngugi.Notwonete iri ngugi itina inya gwita ngugi amwe ja timu kiri gukuria miti yeetu ya nasari.Kiri gakundi geetu kanini,nituthithagia table banking iri njira yetu ya gukurania ki mbeca.Twaritira mbeu iji ya mbeca kuuma kiri marihi ja miti.Nitutumagira mbeca cia marihi ma miti kiri kuthithia nasari ya miti yeetu.

Kagita getuku nasari yeetu yakinyitie miti 2000.Miti imwe twa andire miundene yeetu na ingi twendia kiri aturi beetu.Narua iji gakundi geetu kari na miti 1780 iria itari kiri miunda yeetu na kiwango kinene kiri miti ya matunda.

Turi na kugwirua kiri muradi wa TIST.Mwanka nandi nitugwatite nkuruki ya ksh100,000 kuuma kiri mbeca cia kaboni na alubanji.Nitumbite nkinya kugwata mbeca kuumania na kwendia maembe jaria jatuejaga nkuruki ya 50,000 o mwaka na machungwa najo jatuejaga nkuruki ya 30,000 o mwaka.

Nitukwenda gwikira inya arimi ba TIST gwita ngugi na inya na injega.Batigete kuanda miti tu,tiga baande miti iria iri na baita nkuruki ya imwe.

TIST: Mutaratara wa gucokia miunda iria yariti kiri muradi.

Magita jamwe atari ba miti (Clasta Servants) nimbakugwata iromba kuuma kiri arimi miunda yao imikuru iria yaritirwe kiri muradi icokue ringi. Miunda iji yaritirwe kiri website ya TIST riria murimi aregire guitarirwa niuntu bwa itumi mwanya kana yaritwa niuntu bwa kurema guitarika ni ithaka kana nkinya gitumi kingi o kiothe.Miunda imwe ni yaritirwe nkinya ni thina ya mitambo.

Nandi ni tukwenda gutungata arimi ja baba kethira noo bamenyerete miti yao.Kuri nkinya miunda itemi miti yonthe na iu itiumba gucokua.Miunda ja iji ni ireterete thina muradi junthe.

Juju ni ju mutaratara wa gucokia miunda iji imikuru.

1. Murimi arete iromba riawe kagita ka mucemanio jwa o mweri. Ni amenyeniyithie amemba niki akwenda muunda uju ucokua kiri muradi.
2. Cluster Servants kethira bakugwatanira na iromba riri, Ni beete muundene bategeere nkuruki. Nibatege boone kethira muunda juri na miti na baringe mbica ya muunda juju.

3. Cluster Servants niboonganis mbica iji kiri clasta servant,atongeria ba Leadership Council ona kana Desk Auditor.
4. Mbica nonkinya ijukue kethira muunda juri na miti kana jutinayo.Onankinya jukithira juticokua kiri muradi,itani na mbere kuringa mbica.
5. Cluster Servants beete mbere kuejana ripoti kiri mucemanio jou jungi jwa clasta.Kethira atongeria bagetukia muunda juju jucokue,clasta servant akajukia iromba riri na aikie kiri Regional Tech person nikenda jucokue.
6. Regional tech person agategeera na atigiire jugucokua ndeene ya ntuku mugwanja.
7. Muunda juju jwacokua,clasta servant akeja ndeene ya jiumia ijiri kujutegeera na kujutara.Ageeta mbere guitarira amemba bonthe kethira gikundi giki nikirathiritie nkuruki ya mweri jumwe kuuma riria giataririria muthia.

TIST: Njira injega ya gwita ngugi ndeene ya clasta.

Niki turitaga ngugi na clasta.

1. Nikenda kugia na matumiri ja makai ja gutungatira ikundi na marihi ja kaboni joomba kwongereka na gukinyira murimi.
2. Gutigiira tukundi tunini nitukuumba gutungatanira na njira itina inya.
3. Gutigiira muradi wa TIST niukuumba gutamba na njira inene bakigwatanagiira na ikundi ingi iria ikwenda kuthungira ndeene ya TIST.

Clasta injega ithagirwa ikari atia?

- o Clasta ibwiiri ithirwe iri na ikundi 30-50.
- o Ikundi cia clasta ibaterie kwithirwa iri antu amwe aria boomba gwiita na maguru kiri aria bacemanagia.
- o Clasta nonkinya itigiire miti ni itari bweega na amemba bakathoma bweega.
- o Clasta nonkinya ithirwe iri na miti ya nasari ya kuanda o mwaka. Tukundi tunini twa TIST kuanda miti iria miega akuhi na micii yao, kiri mikumbu ya miunda, kuanda miti amwe na imera ndeene ya miunda na ingo inyngi.

Clasta injega ibataritie kuthithia atia?

- o Kuthithia ithurano kagita ka mieri 4 kuthuura mwiki mathabu uria akathiurunka kiri utongeria.
- o Clasta ibaterie gucemania o rimwe ndeene ya mweri, kugaana njira injega cia gwita ngugi, kuejana mazingira bora, marihi ja ikundi na ngugi ingi.

- o Kiri micemanio ya clasta, atongeria nibaejanaga ripoti na njira ya utheri kiri amemba bangi, ja uria budget itumirikite.
- o Kiri mucemanio jwa o mweri, clasta nonkinya itume ripoti ya mucemanio na matumiri ja mathabu na thimu ya android na pendragon form.
- o Clasta ibataritie igetagia guitarirwa miti kagita karia rionthe ikwendekeka.
- o Clasta nonkinya iite nguugi na inya gutigiira data ya miti ni injega ya tukuundi na gutigiira miti nikumba kugwata mbeca cia kaboni na njira ya gutonyithua kiri (PDD).
- o Clasta nonkinya itigiire miti ni igutarwa bweega.
- o Clasta nonkinya iite ngugi gutigiira ikundi cionthe ndeene ya clasta ni ikugwata mbeca.
- o Clasta injega nonkinya ikare ikithomithagia na kwandikithia ikundi ingi ndeene ya TIST. Gukura kiri TIST niku kumikagira inya! Clasta nonkinya igaciarana maita jairi igakinyia nkuruki ya amemba 400.

Clasta iria njega cia TIST ikoomba:

1. Kugwata budget inyngi nikenda yuumba gwitithia ngugi ciayo na mbere.
2. Kugwata mbeca inyngi o kiri muti na kiri o murimi.
3. Kugwata kanya ka gwita semina ya clasta iria njega.
4. Kugwata kaanya ka kuthomithia clasta ingi.

TIST: Nitwithuranirite ringi gutegerua ngugi cietu.

Nikenda arimi ba TIST boomba kugwata marihi kuuma kiri wendia wa tani cia kaboni, Muradi wa TIST nonkinya utegerwe ngugi na ategi kuuma oome ja bo verifiers. Utegi bubu ni bwa gitumi muno niuntu nibu butigagiira ngugi ni iriti bweega ni clasta servants ba TIST.

Verifier betikagirua ni Verra kuthithia ngugi iji. Verra nibo bategagiira mawatho ja ngugi iji ya wendia wa kaboni kiri thoko cia kwiritira.

Aja kuri na kumenyithua kwa antu bonthe ngugi iria TIST igategerua gwa kagita gati araja.

TIST PD KE005, Gutegerua kuuma 23 May 2020-14 April 2023.

TIST is an innovative, time - tested, afforestation program led by the participants.

Urru TIST Cluster ya Urru mari mucemanio-ini uria wari 19/4/2023. Mucemanio ungi ugakorwo 17/5/2023.

Inside: Ngurubu nini ya Muguna: Kurutithania wira turi hamwe. Page 2

TIST: Maundu ma guteithia gucokia ngurubu. Page 2

TIST: Maundu maria twagiriirie gwika. Page 3

TIST: Nitwihariirie ihinda ringi ria guitarwo. Page 4

Ngurubu nini ya Muguna: Kurutithania wira turi hamwe.

thui turi ngurubu nini ya Muguna 2008KE1569. Turi a Clasta ya Tubui. Tubui ni mwana wa Clasta ya Tunyai iri ta Clasta iria ituciarite. Twambiriirie Clasta ya Tubui mwaka-ini wa 2013 turi ngurubu nini 22.Umuthi, turi ngurubu nini 65!

Twaingirire TIST mwaka-ini wa 2008. Twari amemba atandatu (6).Twacemanagia oro kiumia na tukaririiria maundu mabata megie ngurubu nini. Tugicoka tukiambiriria gucemanagia niguo turutithaniagie wira hamwe wa nursery cia miti cia ngurubu nini. Nitucokete tukamenya ati niwega kurutithania wira hamwe gukuria mimera. Nguru nini itu, nitukubacaga mbeca ta njira ya gwikuria ki mbeca.Tuheagwo mbeca cia kugura mbegu kuma marihi ma TIST. Oro ho

tutumagira mbeca imwe gukuria tuta cia miti.

Kimera githiru, twari na mimera 2,000 tuta-ini citu. Tukihanda mimera imwe migunda-ini itu, na iria ingi tukienderia arie turiganitie nao. Umuthi, turi na miti migima 1780 migunda-ini itu, na makiria iria maingi ni ya matunda.

Turi na gikeno niundu wa TIST. Ni twamukirite makiria ma Ksh 100,000 ta faida ya share na marihi. Oro ho ni tugunikite na kwendia maembe maria matuhete makiria ma Ksh 50,000 oro mwaka. Macungwa matuhete makiria ma Ksh 30,000 oro mwaka.

Turenda kumiriria arimi a TIST kuruta wira na hinya.To kuhanda miti tu. Handa miti iria iri na umithio.

TIST: Maundu ma guteithia gucokia ngurubu.

Maundu mamwe, Cluster Servants ni moragio ni arimi gucokia ikundi cia miti gucokio. Ikundi ici cieheririo kuma kwa TIST website tondu arimi ni maregire guitarwo kwa miti niundu wa maundu matiganite kana ni mamakitwo uria gutagiriire tondu matingiakinyirikire niundu wa ithaka kana maundu mangi. Ikundi ingi cieheririo ni undu wa maundu mangi matiganite.

Ni turenda kurutithania wira na arimi ta aya gucokia ithaka ciao angikorwo ni ma ni mari na miti. Kuri ngurubu imwe magethire miti na ndingicokeka.Ithaka ici ni mathukitie mubango wothe.

Maya nimo maundu maria maguteithia gucokia ngurubu.

1. Murimi abatie ritana hindi ya mucemanio wa clasta. Abatie guitariria niki kingitura ithaka icokio.
2. Cluster Servants angiigua aiganira, athii agacerere ithaka. Angikora ngurubu iri oro ho na iri na miti ahure mbica.

3. Cluster Servants atumire mbica icio cia ithaka kuri aruti wira a clasta, mutongoria oro wothe kana Desk Auditor.

4. Mbica icio cibatie kuhurwo onangikorwo ngurubu ndiri na miti. Ona angikorwo ithaka ndikinyaniirio ikiro cia gucokio, thii na mbere gutumanira mbica.

5. Cluster Servants macoke maheane riboti mucemanio-ini wa clasta. Atongoria a clasta mangitikira gikundi gicokio, muruti wira a clasta amenye na ni ithaka iriku na aneane ritwa ria ithakakuri urugamiire Regional Tech.

6. Regional Tech ucio agucokia ithaka iyo handu-ini ha kumia kimwe.

7. Thutha wa ngurubu gucokio, muruti wira wa clasta athii agacerere ithaka icio na gutara miti. Ni kwagiriire ngurubu ta icio guitarwo ringi kwa miti angikorwo thiku mirongo itatu ni hituku kuma riria miti yataritwo.

TIST: Maundu maria twagiriirie gwika.

Ni kii gitumaga turute wira ta Clasta?

- I. Kuiga thogora wa ngurubu nini cia TIST uri thi niguo mbeca cia carbon cithii kuri murimi.
2. Kuhe kanya ngurubu nini kwirutira wira.
3. Kuhe TIST kanya ga kwarama na kunyitanira na makambuni niguo maingire TIST.

Muclasta mwega ahana atia?

- o Clasta ibatie gukorwo na ngurubu nini 30 – 50.
- o Ngurubu nini cia Clasta cibatie gukorwo cikuhaniriirie muno na cikorwo na ha gucemanagia.
- o Clasta ibatie gukorwo itariirwo miti wega na githomo kia iguru.
- o Clasta ibatie gikorwo na mimera ya kuigana tuta-ini ciao niundu wa kuhanda mwaka mugima. Ngurubu nini cia TIST cihandaga ‘namba iria njega’ ya miti guthiururukiria nyumba, rugiri-ini, gutukania na mimera ingi migunda-ini etc.

Muclasta mwega abatie gwika atia?

- o Clasta ibatie kugia na githurano thutha wa mieri 4 na guthura mundu mwagiriru uria uguthiururukana iti-ini ciiothe.
- o Clasta cibatie gucemanagia oro mweri niundu wa guthomithio, kugayana urimi mwega, ugayania wa *Mazingira Bora Newsletter*, marihi, na maundu mangi.
- o Micemanio-ini ya Clasta, arugamiriri mabatie kugayana maundu gutari na uHINGA kuri a memba aria angi, ta budget ya Clasta uria ihuthikite.

- o Mucemanio-ini wa oro mweri, mumemba wa Clasta abatie kuneana record cia micemanio na form cia Clasta Accounting Form kuma kuri thimu cia Android Phone Pendragon Forms.
- o Muclasta abatie gwitia utari wa miti riria abatara.
- o Muclasta abatie kumenya ati utari wa miti ni wa ma.
- o Muclasta abatie kuruta wira na kuongerera data ya ngurubu nini yake niguo miti yao imenyekane niundu wa thoko ya carbon (hamwe na documents cia Carbon Project).
- o Muclasta abatie kuruta wira na guthondeka marihi ma oro ngurubu nini.
- o Muclasta mwega akoragwo akiingiria a memba eru kuri ngurubu nini. Ukuria uthondekaga TIST kugia na hinya! Clasta ibatie kwamuka ngurubu 2 riria makinya a memba 400.

TIST Clasta iria njega ibatie:

- I. Kwamukira budget niguo guthondeka mitaratara.
2. Kugia na mbeca nyingi hari oro muti hari oro murimi.
3. Gwitwo githomo kia Clasta iria njega.
4. Kugia na uigiririki wa guthomithia aria angi a Clasta.

TIST: Nitwihariirie ihinda ringi ria guitarwo.

Niundu wa arimi a TIST kwamukira marihi ma carbon tonnes, mubango wa TIST no nginyanagia mathabu mekwo ni ruhonge kuma na nja rwitagwo Verifiers. Guitarwo guku ni kubataranagia niguo kumenyeke ati data ciothe ni njega iria ciunganitio ni TIST Cluster Servants.

Atari aya no nginya mahitukio ni Verra, ruhonge ruria ruramataga thoko ya carbon tonnes thiini wa thoko ya carbon.

Haha thi ni aria maumite TIST projects mamurikitwo guitarwo ihinda ritari kuraihu.

TIST PD KE005, Ihinda riria gucuthiirio 23 May 202 – April 2023.

Maumirira ma mubango wa kurumirira riera.

Mazingira Bora

The International Small Group & Tree Planting Program
www.tist.org

Kiswahili Version

TIST is an innovative, time - tested, afforestation program led by the participants.

Mkutano wa Nguzo wa Urru TIST uliofanyika tarehe 19/4/2023. Mkutano ujao tarehe 17/5/2023.

*Ndani
ya
Gazetti*

Kikundi Kidogo cha Muguna: Kufanya Kazi Pamoja katika Kazi ya Timu. Uku. 2

TIST: Miongozo ya urejeshaji wa vichaka. Uku. 2

TIST: Mbinu Bora za Nguzo. Uku. 3

TIST: Tuko Tayari kwa awamu nyingine ya Uthibitishaji. Uku. 4

Kikundi Kidogo cha Muguna: Kufanya Kazi Pamoja katika Kazi ya Timu.

Sisi ni Muguna Small Group 2008KE1569. Sisi ni wa Tubui Cluster. Tubui ni mtoto wa Kundi kutoka kundi la mama la Tunyai. Tulianzisha Nguzo ya Tubui mnamo 2013 tukiwa na Vikundi Vidogo 22 wakati huo. Leo, tuna Vikundi Vidogo 65!

Tulijiunga na TIST mwaka wa 2008. Sisi ni wanachama sita (6). Tunakutana kila wiki ambapo tunajadili masuala muhimu kwa Vikundi vyetu Vidogo. Pia tunakutana kufanya kazi kwenye kitalu chetu cha miti cha Kikundi Kidogo. Tumeona ni rahisi kufanya kazi kama Timu katika kukuza miche ya miti. Katika Kikundi chetu Kidogo, tunafanya huduma za benki kama mbali ili kujijenga kifedha. Tulipata mtaji wa mbegu kutoka kwa malipo ya TIST. Pia tunatumia sehemu ya fedha hizo kuboresha kitalu chetu cha miti.

Msimu uliopita, tulikuwa na zaidi ya miche 2,000 kwenye kitalu chetu cha miti. Tulipanda baadhi katika mashamba yetu, huku mengine yakiuzwa kwa majirani zetu. Leo, tuna zaidi ya miti 1780 iliyokadirwa katika mashamba yetu, na miti ya matunda yenye umuhimu mkubwa.

Tunashukuru kwa mpango wa TIST. Kufikia sasa tumepokea zaidi ya Ksh 100,000 kama sehemu ya faida na malipo ya awali. Pia tumefaidika kutokana na mauzo ya maembe ambayo hutuletea zaidi ya Ksh 50,0000 kila mwaka. Machungwa hutuletea zaidi ya Ksh 30,000 kila mwaka.

Tunataka kuwahimiza wakulima wa TIST kufanya kazi kwa bidii na werevu. Usipande miti tu. Panda miti ambayo ina faida nyingi.

TIST: Miongozo ya urejeshaji wa vichaka.

Katika baadhi ya matukio, Watumishi wa Nguzo wanakuwa na maombi kutoka kwa wakulima ili mashamba yao nzee yarejeshwe. Baadhi ya mashamba haya yaliondolewa kwenye tovuti ya TIST wakati baadhi ya wakulima walikataa kuhesabiwa kwa sababu fulani au yaliwekwa alama kuwa hayatumiki kwa sababu hayakuweza kufikiwa kwa sababu ya msituni au sababu nyingine yoyote. Baadhi ziliangushwa kimakosa kutokana na matatizo ya kiufundi.

Tunataka kuwahudumia wakulima kama hao kurejesha mashamba yao ikiwa wanatunza miti kwa dhati. Kuna Groves ambazo zimevunwa na haziwezi kurejeshwa. Groves kama hizo zimeathiri mpango mzima.

Huu hapa ni mwongozo wa kurejesha mashamba ya zamani.

1. Mkulima anatakiwa kutoa ombi hilo wakati wa Mkutano wa Nguzo. Anapaswa kueleza kwa nini anataka hiyo Grove irejeshwe.
2. Viongozi wa Vikundi wakiridhika na ombi hilo, watemeblee shamba hilo na kulifanya tathmini. Angalia ikiwa shamba bado liko na miti na upige picha za shamba hilo.

3. Viongozi wa Nguzo wanapaswa kushiriki picha za Viwanja hivyo na Mtumishi wa Nguzo, mjumbe yejote wa Baraza la Uongozi na Mkaguzi yejote wa Dawati.

4. Picha zinapaswa kuchukuliwa kama Grove ina miti au la. Hata kama haitastahiki kurejeshwa, tafadhali endelea kushiriki picha.

5. Viongozi wa Nguzo watatoa ripoti yao wakati wa mkutano wa Nguzo unaofuata. Ikiwa viongozi wa Nguzo wanapendekeza Grove kurejeshwa, Mtumishi wa Nguzo atazingatia Grove hiyo na kutuma ombi hilo kwa mtaalamu wa Regional Tech.

6. Mtu wa Tech ya Mkoa ataipitia na kurejeshwa ndani ya wiki moja.

7. Baada ya Kichaka kurejeshwa, Mtumishi wa Nguzo atatembelea ndani ya wiki 2 na Kuhesabu Kichaka kama hicho. Inapendekezwa kwamba Groves nzima ya Kikundi kuhesabiwa upya hasa ikiwa imepita siku 30 za ukadiriaji.

TIST: Mbinu Bora za Nguzo.

Kwa Nini Tunafanya Kazi Katika Vikundi?

1. Kuweka gharama za kuhudumia Vikundi Vidogo vya TIST kuwa chini ili pesa nyingi za kaboni ziende kwa wakulima.
2. Kuruhusu Vikundi Vidogo kujihudumia kwa urahisi zaidi.
3. Kuruhusu TIST kupanuka kwa haraka zaidi kwa kushirikiana na mashirika yanayotaka kuijunga na TIST.

Nguzo Nzuri Inaonekanaje?

- o Nguzo inapaswa kuwa na Vikundi Vidogo 30-50.
- o Vikundi Vidogo vya Kundu vinapaswa kuwa ndani ya umbali wa kutembea kutoka sehemu kuu ya mikutano.
- o Cluster inapaswa kufanya upimaji sahihi na mafunzo ya hali ya juu.
- o Nguzo inapaswa kuwa na miche ya kutosha kwenye vitalu kwa mahitaji ya upanzi ya kila mwaka. Vikundi Vidogo vya TIST Hupanda ‘idadi sahihi’ ya miti kuzunguka nyumba zao, kando ya uzio, iliyochanganywa na mazao shambani mwao, n.k.

Je! Nguzo Nzuri Ifanye Nini?

- o Kundu linapaswa kufanya uchaguzi kila baada ya miezi 4 ili kuchagua Mtu wa Uwajibikaji ambaye atafanya mzunguko kuititia nafasi.
- o Nguzo inapaswa kukutana kila mwezi kwa ajili ya mafunzo, kubadilishana mbinu bora, usambazaji wa Jarida la Mazingira Bora, malipo, na mambo mengine.

- o Katika mikutano ya Nguzo, wawakilishi wanapaswa kushiriki habari kwa uwazi na wengine wanachama, kama vile jinsi bajeti ya nguzo ilivyotumika.
- o Katika mikutano wa kila mwezi wa Nguzo, Nguzo inapaswa kuwasilisha Rekodi yao ya Mkutano wa Nguzo na Fomu zao za Uhaisbu za Cluster kwa kutumia simu ya Android Fomu za Pendragon.
- o Nguzo inapaswa kuomba uhakiki inapohitajika.
- o Cluster inapaswa kuhakikisha kwamba quantification ni sahihi.
- o Nguzo inapaswa kufanya kazi ili kuboresha ubora wa data wa Vikundi vyake Vidogo ili miti mingi zaidi iweze kuwa inastahiki soko la kaboni (iliyojumuishwa katika Hati za Mradi wa Carbon).
- o Kundu linapaswa kufanya kazi ya kufanya malipo kwa kila Kikundi Kidogo.
- o Nguzo Nzuri kila wakati huajiri na kufundisha Vikundi Vidogo vypa. UKUAI hufanya Mpango wa TIST imara zaidi! Kundu linafaa kuzidisha katika 2 linapofikia wanachama 400.

Nguzo Bora za TIST Zitaweza:

1. Pokea bajeti zaidi ili kudhibiti shughuli zako zaidi.
2. Pata pesa zaidi kwa kila mti kwa kila mkulima.
3. Kualikwa kwenye Semina ya Nguzo Bora.
4. Chukua majukumu ya kufundisha makundi mengine.

TIST: Tuko Tayari kwa awamu nyingine ya Uthibitishaji.

Ili wakulima wa TIST wapokee malipo kutokana na mauzo ya tani za kaboni, Mpango wa TIST unapaswa kukaguliwa na Wakaguzi wa nje wanaojulikana kama Wathibitishaji. Uthibitishaji ni muhimu ili kuhakikisha uadilifu na ubora wa data iliyokusanywa na Watumishi wa Nguzo wa TIST.

Vithibitishaji kwa kawaida huidhinishwa na Verra, shirika linalodhibiti biashara ya tani za kaboni katika soko la Hiari la kaboni.

Hapa kuna arifa za umma za miradi ya TIST ambayo imewekwa kuthibitishwa hivi karibuni.

TIST PD KE005, Kipindi cha Ufutiliaji 23 Mei 2020-14 Aprili 2023.

Matokeo ya Mpango wa Ufutiliaji wa Hali ya Hewa.

Jumla ya hekta za mradi: 9,120.

Idadi ya maeneo ya mradi (PA): 17,358.

Idadi ya miti katika PD: 2,690,275.

Tani za Maisha ya Kaboni Zilizowekwa katika PD: Tani 1,849,351 Zilizowekwa Katika Kipindi cha Ufutiliaji: 740,608.

Matokeo ya Mpango wa Ufutiliaji wa Jamii.

Wanachama wa Vikundi Vidogo katika PD: Watu 35,318 Vikundi Vidogo katika PD: 5,168 Wanajamii katika TIST Kenya: Watu 130,534 Vikundi Vidogo katika TIST Kenya: 18,490 Idadi ya wanajamii wanaoshiriki TIST KE: watu 90,100 Wanachama walio na makubaliano ya gesi chafu

nchini TIST Kenya: 87,178 watu Wanachama wanaopokea malipo (wanawake na wanaume): 61,359 Vikundi Vidogo vinavyopokea Malipo: 9,327 Jumla ya malipo kwa jamii katika TIST Kenya: Dola za Marekani 3,080,673 Vikao vya mafunzo ya watu kuhusu mabadiliko ya tabianchi katika TIST KE: 161,844 Vikao vya mafunzo ya watu kuhusu Kilimo Hifadhi katika TIST KE: Vikao 261,643 vya mafunzo ya watu kuhusu VVU/UKIMWI na afya katika TIST KE: 134,917 Vikao vya mafunzo ya watu juu ya bioanuwai katika TIST KE: 278,250 Vikao vya mafunzo ya watu kuhusu mazoea ya usimamizi wa maliasili: 456,503 Vikao vya mafunzo ya watu juu ya TIST 12855 KE: vipindi vya mafunzo ya mtu katika TIST KE: 3,101,232 Idadi ya watu wanaofanya kazi kwa TIST: watu 118 Idadi ya miti hai katika TIST KE: 12,649,886 Idadi ya miti hai katika PD: 2,690,275 miti.

Idadi ya miti ya matunda au kokwa katika PD: miti 438,497.

Idadi ya miti ya mikaratusi katika PD: miti 281,797.

Manufaa ya Jumuiya ya Kiwango cha Dhahabu:

Manufaa ya kuchuma mapato kwa wanachama wa wastani. Maisha yote: \$13,473. Kipindi: \$3,557.

Manufaa ya kupokea mapato kwa wanachama walio katika mazingira magumu. Maisha yote: \$4,804. Kipindi: \$1,246.

Manufaa ya kuchuma mapato kwa wanachama wa kike. Maisha yote: \$12,783. Kipindi: \$3,368. Athari hasi zinazotambuliwa na wanachama. Hakuna athari mbaya ambazo zimeripotiwa na wanachama.

Mpango wa Ufutiliaji wa Bioanuwai.

Jumla ya maeneo yaliyohifadhiwa katika mradi: 17,358.

Idadi ya miti ya kiasili kwa spishi: Hekta 375,963 za miti ya kiasili: 1,575.

Idadi ya Maeneo ya Mradi yenyeye miti ya kiasili: 13,795 miti ya kiasili katika Imenti ya Chini: Hekta 12,247 za Asili katika Imenti ya Chini: 16.2 Vitex keniensis (Meru Oak): miti 20,407.

TIST PD KE006, Kipindi cha Ufutiliaji 06 Januari 2021-14 Aprili 2023.

Matokeo ya Mpango wa Ufutiliaji wa Hali ya Hewa.

Jumla ya hekta za mradi: 5,640.

Idadi ya maeneo ya mradi (PA): 13,111.

Idadi ya miti katika PD: 1,622,971.

Tani za Maisha ya Kaboni Zilizowekwa katika PD: 1,289,570.

Tani Zilizotengwa Katika Kipindi cha Ufutiliaji: 193,585.

Matokeo ya Mpango wa Ufutiliaji wa Jamii.

TIST is an innovative, time - tested, afforestation program led by the participants.

Ngwatanio ya TIST Urru wumbanoni woo matuku 19/04/2023. Wumbano wukite ni matuku 17/05/2023.

Inside: Muguna iKakundi kanini: Kuthukuma vamwe ta timu. Page 2

TIST: Walanio undu wa utungiia nguthu sya miti. Page 2

TIST: Mawiko maseo ma ngwatanio. Page 3

TIST: Twitali kwa laondi ungi wa kuvitukithw'a. Page 4

Muguna iKakundi kanini: Kuthukuma vamwe ta timu.

Ithyi twitawa Maguga kakundi kanini namba 2008KE1569. Twi nthini wa Ngwatatio ya TIST Tubui, Tubui isyaitwe ni ngwatatio ya TIST Tunyai. Ngwatatio ya TIST Tubui Yambiie mwaka wa 2013 yina Tukundi tunini 22. Umunthi twina tukundi tunini 65.

Nitwalikile nthini wa TIST mwaka wa 2008. Twai amemba 6. Ni tukomanaa kila kyumwa vala tuneenaniasya maundu ma vata ma kakundi kaitu. Ingi nitukomanaa kuthukuma ta timu kivuioni kitu kya miti. Nitonete wi undu wi laisi kuthukuma na kuseuvya kivuo ta kikundi. Nthini wa kakundi kaitu kanini nitwika wii wa mbesa sya menzani, ila ninzia imwe ya kukilanya ki ukwati. Nitwakwatie mbesa sya kwambilia kuma ndivini ya TIST. Ingi nitwo saa kilio kimwe kya mbesa isu na kwailya ivuio situ.

Mbuu thelu twaina miti kuma kivuioni kitu mbee wa 2000. Nitwavandie imwe ithekani na miundani yitu, ila ingi nitwatee atui maitu. Umunthi, twina miti mivitukithye mbee wa 1780 miundani yitu ila yina wonany'o mwingi wa miti ya matunda.

Twina muvea kwa walario wa TIST. Kwayu nitukwatite vaita wa kuaiwa uvitukite Ksh.100,000 vamwe na aluvasi. Ingi nitukwatite vaita kwa kuta maembe ala matunengete uthwii uvitukite Ksh.50,000 kila mwaka na Masungwa matunengete vaita wi mbee wa Ksh30,000 kwa mwaka.

Nitukwenda uthuthya aimi ma TIST kuthukuma na kithito na ui. Ndukakite uvanda miti tu. vanda miti yina maueti kivathukanio.

TIST: Walario undu wa utungiia nguthu sya miti.

Kwa muvwano, athukumi ma ngwatatio nimeukwata ukuly'o kuma kwa aimi amwe mayenda nguthu ya miti yoo mikuu itungiwe. Ikuthu ithi imwe nisyumi'e nthini wa website ya TIST yila amwe ma aimi maleile maivitukithiwa miti yoo nundu itumi ta amwe kwithiwa maekie kuithukuma nundu wa itumi syoo. Imwe nisyumi'e mitandaoni kwa nzia ya kueleka kueleka kana nthina wa mitambo.

Nitukwenda uthukuma na utungiia aimi aya ala kwaw'o methiitwe masuviite miti yoo. Kwi ikuthu imwe sya miti sya kethiwe na kwoou iitonya utungiwa. Ikuthu isu syeengiwe nisyumiisye walany'o w'onthe.

Vaa vena walario undu wa utungiia miti/ikuthu ila nguu.

1. Muimi niwaile ukulya utao iulu wa undu uu yila kwina umbano wa ngwatatio. Ingi niwaile kuelesya niki ukwenda nguthu ino ya miti itungiwe.
2. Ethiwa mutongoi wa ngwatatio niwaelew'a na eaniwa ni ukulyo uyu, niwaile uthikea nguthu ino ya miti na kusisa kana miti yiilye undu yailye na kukuna visa.

3. Mutongoi wa ngwatatio niwaile utuma visa ya nguthu ino ya miti kwa athukumi ma ngwatatio na tangoi ma kanzu ya ngwatatio na kwa mwiki wa masavu (mwii wa kinandu).
4. Visa nisyiale ukunwa ethiwa ve miti kana vai miti. Onaethiwa nguthu ino ndivitukitw'a kutngiiwa, nuseo kwosa visa isuna kutuma kwa utongoi wa TIST.
5. Atongoi ma ngwatatio nimeunengane livoti wumbanoni ula uatiie wa ngwatatio. Atongoi ma ngwatatio meetikilana itungwe, muthukumi wa ngwatatio isu nukuandika na kutuma ukulw'o wa kutngiiwa kwa nguthu isu ya miti kwa mundu wa mitambo.
6. Mundu wa kisio wa mitambo nukusisa na kumitungia nthini wa kyumwa kimwe kitekithelu.
7. Itina wa nguthu ino ya miti kutngiiwa, muthukumi wa ngwatatio nukuthoka nthini wa sumwa 2 na kuthiana na kuvitukithya nguthu ino ya miti. Nivetikilye knana nguthu ino ya miti ya kikundi niyale uthianwa ingi na kuvitukithya nthini wa mithenya 30.

TIST: Mawiko maseo ma ngwatatio.

Niki tuthukumaa na Ngwatatio?

- I. Kwikalya utumiku wa kuthukuma kakundi kanini ka TIST wi munini nikana mbesa kuma nzeveni itavisa ikavikia muimi.
2. Kueka tukundi tunini kwithukuma vate vinya.
3. Kutetheesa tist kuthanthaa na kwiana kwa kukwatana na mivea ingi ila ikwenda ulika nthini wa TIST.

Ngwatatio nzeo yithiawa ilye ata?

- o Ngwatatio yaile ithiwa na tukundi tunini 30-50.
- o Ngwatatio yaile ithiwa iseuvitw'e na tukundi tunini tuthengeanie muendo wa kutembea na maau kuvika kati vala mombaniaa.
- o Ngwatatio yaile ithiwa ithianitwe na kuvitukithw'a kwa w'o na ikamanyiw'a nesa.
- o Ngwatatio yaile ithiwa na mbeu mbianu kivuioni kyayo kwa mwaka. Tukundi tunini tw TIST kuvanda miti namba ila yianiie kuthyululukya nyumba syoo, mbiioni iatiie laini na kuvanda ivulene na liu miundani na kundu kungi kwingi.

Nata ngwatatio nzeo itonya kwika?

- o Ngwatatio yale kusakuana itina wa myai 4 kunyuva mwii wa kinandu ula uthukumi wa kithyululu ukuendeeaa.
- o Ngwatatio yaile umbana kila mwai kwa kumanyany'a kuthuthania na kuvundianya mawiko meu, kunengwa mathangu ma Mazingira Bora, kukwata ndivi na maundu ang'i.

- o Nthini wa mbumbano sya ngwatatio, ala mavika nimaile kumanyithany'a iulu wa uvoo wa utheu wa memba kuthi ula ungi, ta undu mbangyeti ya ngwatatio itumikite.
- o Yila kwi wumbano wa kila mwai ngwatatio niyaile ukwata livoti na kutunga livoti ya wumbano woo wakila mwai maitumia Simu ya Android Phone Pendragon form.
- o Ngwatatio niyaile kwitya kuthianwa na kuvitukithw'a ila vaile
- o Ngwatatio niyaile kuikiithya uvoo ula wakolanw'a miti iithianwa na kuvitukithw'a niwa w'o.
- o Ngwatatio niyaile kuthukuma kuikiithya tukundi tula twi ngwataniioni ino nitweana na kuvanda miti kwa wingi nakwithiwa tutalika nthini wa soko na ndunyu ya nzeve itavisa (Kwithiwa meaandikithye walanioni wa nzve itavisa)
- o Ngwatatio yaile uthukuma vamwe kuikiithya kila kakundi kanini nikaiwva.
- o Ngwatatio nzeo yikala ivundiitye na kumanyisa tukundi tungi tunini tweu. Kwiana nikutumaa walany'o wa TIST umesya vinya! Ngwatatio niyaile uaanwa kundu kwili yavikya amembwa 400.

Ngwatatio ila nzeo sya TIST nito.

- I. Kukwata mbangyeti yi iulu na kuungamia maundu menyu ene.
2. Kukwata mbesa mbingi kuma mutini umwe kwa kila muimi.
3. Kuthokw'a nthini wa semina ta ngwatatio ila nzeo.
4. Kwosa kumanyisa ngwatatio ila ingi ta muio wina uito.

TIST: Twitiali kwa laondi ungi wa kuvitukithw'a.

Kwa imi ma TIST kukwata ndivi yoo kuma utandithyani wa tani sya nzeve itavisaa, walario wa TIST nonginya ukaikiithya utalo kwa nzia ya kila ngwatanio kuthuimwa na kuvitukithwa ni auditors kuma nza wa ngwatanio isu. Kuvitukithwa ni kwavata nikana kuikiithya wumilu na uvoo mwitherianu wa livoti ila yoooswa ni athukumi ma ngwatanio sya TIST.

Avitukithya methiawa manyuvitwe ni Verra, ila ni kyo kikundi kila kiungamie mawalario ma nzeve itavisaa na tani syayo sokoni wa kwiyumya wa nzeve itavisaa.

Vaa vena kindu kyaikia maanani kwa meko ma Tist ala maile uvitukithwa umituki.
